Abstract of the remarks of the Sub-Committee of the Mysore Municipal Board and Mr Bhabha's remarks thereon on the subject of the liability of the Coy Municipality to pay grants-in-aid to High Schools

1st Condition

"The principles and system of Education and the course of instruction to be adopted in municipal schools shall be the same as those prescribed for Govt Schools"

Opinion of the Sub-Committee

As regards "Middle Schools" the committee abide by the above Condition. As regards Primary Schools they say that all that the parents require of ~~Knowledge~~ their sons is a knowledge in the three Rs which would easily fit them up for some trade or other. They do not want higher Education. They therefore hesitate to accept the above Condition

Mr Bhabha's remarks thereon

The Committee evidently desire for classes similar to the indigenous Pathasalas. Govt have already recognised the necessity of aiding such schools. The Municipality may maintain & aid some schools that adopt Govt Primary School curriculum. It may only aid Govt need not maintain schools like the old Pathasalas in the latter

The standard prescribed for Village indigenous Schools should be insisted upon

The Committee accept the II Condition which requires that all municipal schools shall be open to inspection and examination at all times by the Government Inspecting Staff.

III Condition:- In municipal schools those persons only shall be employed who hold certificates of qualification recognised by the Education Deptt or whose qualifications are approved of by the Deputy Inspector of Schools. The salaries of masters shall be regulated by the scale adopted in Govt schools.

The Committee think that no Examination qualification should be required of the Vial School masters as they very well train up boys in the three Rs in their own way if Examination qualification be insisted upon there will be very few applicants for the Municipal grant.

Mr Bhabha is of opinion that some Examination qualification must be insisted upon otherwise when the Rules of Primary Education by the Municipalities are extended to Municipalities less enlightened than that of Mhpore there will be the risk of their extending their patronage to inferior men

IV The Scale of fees and the percentage of free studentships in Municipal Schools shall be the same as those prescribed for Government Schools

The Committee are of opinion that the above rule may be enforced in the Regulation Schools now in existence but the rule should be relaxed in the case of Rural Schools where heavy fees are ungrudgingly paid by parents who wish for a substantial good foundation to be laid only in the three Rs. The matter should be left to the Board

Mr Bhabha thinks that the interests of Government Schools & Schools aided by Government will suffer if the Scale of fees and percentages of free Studentships are not uniform If greater freedom is to be given to the Board in this matter then such freedom should be conditional on the fact of the Municipality giving aid or taking over all primary schools now maintained or aided by Govt within the municipal limits

The Committee accept the V condition which is that the municipality shall give full consideration to representations of the Edn Dept as to No size & location of the Municipal Schools & all matters relating to discipline & efficient instruction

The Committee accept the VII Condition that the Municipality shall furnish all returns, information &c which may be called for by the Education Dept.

VII Condition The Municipality should delegate its powers in respect of the Schools to a Committee of which the Deputy Inspector of the District should be a member

Unless the Deputy Inspector is a member of the board he cannot be a member of the School Committee. The Committee however are of opinion that he may be present at the meetings without any voice in them

Mr Bhabha thinks that the Board should avail themselves of the co-operation of gentlemen interested in Education who are not members of the Board as is done in other parts of Among such members the Dy Inspector should be an ~~ff~~ Ex officio member as he would be able to give any information to the Board regarding &c of the Departmental

If the Control of the Lower Secondary and High Schools though maintained or aided by the Municipality is to remain with the Education Department then the Municipality should accept the recommendations of the Deptt regarding the increase or decrease of grants made by it if they be within Budget provision

The Committee are of opinion that divided responsibility as regards these schools is more harmful than good. If Govt is prepared to extend discretionary powers to the Board without prejudice to free supervision of the schools by the Inspecting staff of the Deptt the Board may accept the responsibility of managing the Schools, if not the Committee advise the Board not to take up the responsibility

Mr. Bhabha thinks that the Lower Secondary or Middle Schools maintained or aided by the Municipality should adopt the curriculum of Govt Schools and conform to the Deptl rules regarding salaries, qualifications of teachers and fees &c the Board should also accept the Dy's recommendation re increase or decrease of grants to these Schools

Submitted in the
Assembly to-day

24/3/26

Dear Bill

On many very important points, there is a difference between the Dept of Education and the Local Board. Such matters are more easily dealt with personal than by correspondence. I think it is that the Inspectors & the Dept should discuss the & come to one understanding.

Yours truly

DEPUTY COMMISSIONER'S OFFICE,
MYSORE DISTRICT,

Dated Mysore 17th February 189

17.2.94

From

J. Ranganadham Aiyangar,

Deputy Commissioner,
Mysore District.

To

The Chief Secretary to the Dewan of Mysore,

Bangalore.

SIR,

I have the honor to submit for information and orders of Government the accompanying Extract from the Proceedings of the Mysore City Municipal Board dated 28th February 1893.

2 Government Order No 4277-90 dated 28th July 1890 directing the Municipality to continue to pay out of the Municipal funds the grants to and certain Schools to the Extent of Rupees 9000 per annum does not vest the Board with powers of Control over the management of the Educational institutions in question, and to enhance, reduce or withdraw the amount of grants when circumstances call for the action. As regards the Bangalore Municipality however by para 6 of Government Proceedings No 919-22 dated 26th May 1883, the entire management of the Educational institutions in Bangalore to which it contributes grants in-aid is expressly entrusted to it.

3. From the Extracts of the proceedings herewith submitted, it will be observed that the Board is of opinion that the Cost of the Elementary Education should be borne by the Municipality, the Secondary or the Higher Education

education being met from the Provincial funds, and propose that the management of the Schools where primary education is imparted should be transferred to it.

Considering the state of its finances, the Municipality is not in a position to set apart more than 10,000 Rupees per annum for Educational purposes, and out of Rupees 9180 now paid from Municipal funds as per orders already quoted, only a small portion goes to encourage primary Education.

3rd There are only a few Aided Schools in the town and the large area and population of the City render necessary the establishment of some additional boy Schools on the Results grant system in vogue in the Madras Presidency, and of some Girls' Schools in Government localities at the Expense of the Municipality. It is also desirable if possible to increase the number of Night Schools, of which there are at present only two — for imparting primary Education to day Laborers, such as artizans, Brick Layers, Carpenters, Smiths, &c. To organize and develope these very useful institutions, additional funds would be necessary, and unless Government is pleased to relieve the Municipality of the grants in aid which are now being paid to Schools imparting higher Education, the Board cannot hope to give effect to these proposals for improving primary Education.

Under the above circumstances, I beg that you will be so good as to obtain the sanction of Government for relieving the Municipality of its Contribution towards the cost of the 2 High Schools noted in the margin, at least for the present, so as to enable it to increase its present Expenditure on primary Education of boys and girls. I beg that, at the same time, the entire ma-

-nagement of primary Education in the Town may be

transferred

* Wesleyan Mission High School
Karnataka Bhashoppiyim

vested in the Municipal Board subject to such conditions and limitations as you may think necessary

Stating that the Municipality of Mysore may be relieved of the grants paid by it to the Wesleyan Mission High School Mysore and the Karnataka Bhashojjivini Pathasala and also stating certain conditions on which the aided Primary Schools in the town of Mysore shall be subject to the control of the Municipality

Submitted
N
28-5-94

L 3683 8/5/94

Submitted

The salaries of masters to shall be regulated by the scale adopted in Government Schools

"4 The scale of fees and the percentage of free studentships in municipal Schools shall be the same as those prescribed for Government Schools.

"5. The municipality shall give full consideration to representations of the Education Department as to the number, size and location of the municipal Schools and all matters whatever relating to discipline and efficient instruction.

"6 The municipality shall furnish all returns, statistics and information relating to municipal Schools which may be called for by the Department.

"7. The municipality may delegate its powers and duties in respect of the schools it maintains or aids to a Committee of which the Deputy Inspector of the District should usually form a member".

Subject to the above conditions the control of the schools that the municipality maintains or aids may be given to it.

5. I understand from the President's letter that the control of all Lower Secondary and High Schools though maintained or aided by the municipality will remain with the Department. I think it necessary to suggest that in the case of these schools the municipality should accept the recommendations of the Department regarding the increase or decrease of grants made by it if they be within the limits of its budget provision under the head of Education.

6. I beg to return herewith the letter of the President of the municipal Board of Mysore, No 521 dated 17th Feb 1894 and its enclosures.

I have the honour to be
Sir,
your most obedient servant,

H J Bhabha
Secretary.

lm

Pathasala which has been converted since January last into the Government Normal School. If Government is pleased to give this relief by sanctioning the same grants from the Provincial Funds, the Municipality will be relieved of grants amounting to Rs 220 a month or Rs 2640 a year. This amount the Municipality proposes to spend on new primary and night schools to be opened in Mysore and on grants in aid of the existing Pial Schools. The object is a praiseworthy one. The Municipality may be encouraged in carrying it out. If the Municipality spends Rs 10,000 on Educational Institutions, this amount will form ten per cent of its total income which is not an excessive percentage.

4. The Municipality asks for the unreserved control of all primary schools in the town of Mysore, and as a general rule it seems just and reasonable that the Board should have the entire control of all institutions for which it provides funds. But the interests of the people in the maintenance of efficient Primary Schools are so great that the control of Primary Schools asked for by the Municipality should be subject to certain conditions similar to those stated by Government in para 6 of Proceedings No 919-22-67, General dated 26th May 1883 to which the President of the Municipality refers in para 2 of his letter No 521 dated 17th February 1894. The conditions may be stated clearly in the following manner —

"1. The principles and system of education and the course of instruction to be adopted in Municipal Schools shall be the same as those prescribed for Government Schools.

"2. Municipal Schools shall be open to inspection and examination at all times by the Government Inspecting Staff.

"3. In Municipal Schools those persons only shall be employed who hold certificates of qualification recognised by the Education Department or whose qualifications are approved of by the Deputy Inspector of Schools.

17 Encl. 184 S.

To,

The President-
Mysore Municipality
Mysore.

Sir,

We the members of the S&L committee appointed by the Board to report whether the Board would agree to the proposals made in paras 4 and 5 of Mr. P. J. Bhabha's letter prescribing the conditions on which the charge of the institutions, drawing aid from the municipal Board would be made over to it beg to submit the following report about the same.

I. As regards the first condition viz that the principles and system of education and the course of instruction to be adopted in municipal schools shall be the same as those prescribed by the Government schools, we beg to observe that as regards middle schools we are prepared to abide by the condition. As regards primary schools a little modification in the principles and system of Education and the course of

instruction to be imparted will be found necessary. When we give Grants-in-aid to Vial and night-schools, schools in which special attention is given to lay a good foundation in the 3 Rs viz Writing, reading and reckoning and when we see the parents of the students and the students themselves reading in such schools show a distate for the elaborate curriculum of studies, which are considered to be not of a practically useful, but of an ornamental nature, we do not think it right to force the Government curriculum, which is manifestly intended for laying the foundations of a liberal education, upon people who study more to fit themselves up for some trade or other than for any distinction in a literary course of life. We are therefore of opinion that we cannot unreservedly accept the first condition.

very Serious defect

II. We accept the 2nd condition which requires that all municipal schools shall be open to inspection and examination at all times by the Government inspecting staff.

III. The 3rd condition, which requires that the teachers of all the municipal schools should hold certificates of

19 qualification by the Education department, or that their qualification should be approved of by the deputy Inspector of schools and that the salaries of masters should be regulated by the scales adopted in Government-schools is, we are afraid, not likely to work well. many of the masters of the trial schools know how to train the boys in the 3 Rs They enjoy the confidence of the parents and the schools are doing some good work in their own lines. If certificates of qualifications which mean certificates of having passed some examinations be insisted on, there would be few applicants for the municipal grants. the interests of the students reading in such trial schools require, that either the municipality or the Government should in a sympathetic spirit take charge of them locate them in buildings having better sanitary surroundings and gradually introduce certificated teachers. It would do well if these things are left to the Board the Government reserving to itself a sort of wholesome supervision of what is being done.

This is a sound principle

IV As regards the 4 "Condition of the

do- scale of fees and the percentage of scholarship in the municipal schools, we beg to observe that the Government rules may be enforced in the regulation schools now in existence. As regards the trial and night-schools a little relaxation of the rules is necessary. In many of the trial schools nearly four times the fee levied in other schools are being paid ungrudgingly by parents who want a substantial foundation to be laid only in the 3 Rs. This matter too may be left to the discression of the Board.

V. The 5th condition which requires the full consideration of the Board to the representation of the Education department as to number, size, and location of the schools, and all matters whatever relating to discipline and efficient instruction in them may we think be accepted.

VI. We are of opinion that the Board may consent to furnish all returns, statistics and information relating to municipal schools which may be called for by the Education department under condition 6 of the communication in question.

VII Condition 7 requires that the deputy Inspector of the district should be a member of the committee appointed by the Board, to look after the schools in the city. We are of opinion that unless the deputy Inspector is a member of the Board, he cannot be a member of the school committee so as to take part in it. We have no objection however to his being present at the meetings of the committee without claiming to have any voice in the disposal of the work before it.

We have to consider by the Board

As regards para 5 of Mr Rhabha's letter we are of opinion that divided responsibility as regards the control of these municipal schools would do more harm than good. If the Government is prepared to extend discretionary powers as regards the management of these schools to the Board, without any prejudice to the free supervision of these schools, by the inspecting staff of the Education Department, the Board may accept the responsibility of managing the schools. If the Government is not prepared to do so we advise the Board not to take the responsibility.

We have the honor to remain

Sir,

Sir,

22 Your most obedient servants.

The
OFFICE OF ~~THE SECRETARY TO GOVT. OF MYSORE~~
~~IN THE EDUCATION DEPARTMENT~~
Mysore ~~Bangalore~~, 16th March 1896.

To

The Secretary to the Government of Mysore
in the Revenue & General Departments,
Bangalore.

SIR,

With reference to Order No 4871-2 dated 24.7.202-93 24th February 1896, I have the honour to make the following remarks on the Report of the Sub-Committee of the Mysore Municipal Board

2. Para I of the Report deals with the necessity of having some primary schools of an inferior class similar to the indigenous pathasalas of the country. Government have already recognised the necessity of aiding such schools (vide Notification E. No 55 dated the 6th April 1895 regarding the grants-in-aid of Indigenous Schools) while the Municipality may maintain and aid some schools that adopt the full curriculum of Government Primary schools, it may also aid (but need not

No 7242/55 dated 7th May 1894. It is not advisable to lay down that members of the Board alone should be members of the Schools Committee The Board should avail themselves of the cooperation of gentlemen interested in education who are not members of the Board In other parts of India the Schools Committee of a Municipality consists partly of members of the Board and partly others. Of such a Schools Committee the Deputy Inspector should be a member ex officio. By his presence mistakes and friction may be avoided, and he would be able to afford to the other members any information regarding the working of departmental schools that they may require. I consider the constitution of the Schools Committee to be of the highest importance and consider it absolutely necessary that the Board should appoint on its Schools Committee qualified gentlemen who are not members of the Board and that one of these should be the Deputy Inspector ex officio.

6. With reference to the concluding

para of the Sub-Committee's Report I would point out that as the Municipality does not wish to maintain or aid High Schools, these may be left out of account. Government alone will maintain or aid them within the limits of the Mysore Municipality But the Lower Secondary or Middle schools maintained or aided by the Municipality should adopt the curriculum of Government schools and conform in every respect to the departmental rules regarding the salaries and qualifications of teachers, the rates of fees and the percentage of free studentships. The Municipality should also accept the recommendations of the Inspector General regarding the increase or decrease of grants to these schools.

I have the honour to be,

Sir,

Your most obedient servant,

H J Bhabha

Inspector General.

Letter dated 16th March 1896 No 5-824/261 from the Inspector-General of Education Submitting his remarks on the report of the Sub-Committee of the Nipissing City Municipality Called for in Govt Pro dated 24th Feb. 1896 No 9871-2 Y.F. 202-93

No 11311-2/21362 Dy 4/4/96

Order thereon

From the above it would appear that on nearly every important point there is a difference of opinion between the Inspector General of Education and the Municipal Board. Such matters are more easily settled by personal conference than by Correspondence. It is therefore desirable that the Sub-Committee & the Inspector-General should meet and discuss the question and come to an understanding

2. The Inspector General of Education is requested to come to a very early settlement of this question & submit the same for the orders of Govt

Inspector General of Education Dept 1/4/96.

Under Secretary 1/4/96

SECTION Mornel

FILE No. 285 & 934

From

H. J. BHABHA, Esq.,

Inspector General of Education in Mysore,

To

The Secretary to the Govt of Mysore
in the Revenue & General depts
Bangalore

SIR,

With reference to Order No 11311-2/Ed 362 dated 24th April 1896, I have the to inform you that I met the Committee of the Mysore Municipal Board at a meeting held on the morning of the 23rd June 1896 to consider the question of the Board of monthly grants-in-aid to High schools in Mysore. After a full discussion the report to the President of the Municipal Board was agreed

2 The sum of Rs 2640 mentioned in the first recommendation of

To.

The President of the
Municipal Board
Mysore

Sir.

With reference to Board's resolution no IV dated the 25th April 1896 requesting to reconsider the subject with the Inspector General of Education about relieving the Municipality of the liability to pay grants-in-aid to High Schools and to utilise the savings for Primary schools, we the members of the Sub-Committee beg to state as follow. ———

I That we desire to be relieved merely of the grants of Rs 2640/- now paid by the Municipality annually in aid of High schools, and the amount to be devoted to the encouragement and improvement of Vidal school education, and

That for this purpose a Standing Sub-Committee of the Board be appointed under Section 25 of the Municipal regulation

II That we propose that the Standing Sub-Committee should prescribe Standard of Instruction and Examination and conditions of recognition on the lines of Government Notification no 653 dated 6th April 1895.

III That for the present the work of the Board be confined to the giving of aid to primary schools.

IV. The fees levied shall not be less and the percentage of freeships shall not be greater than those prescribed for schools of the same grade maintained or aided by Government

V. We unanimously expressed an opinion that according to

The wording of Section 25 of the present Municipal Regulation it is not possible for the Board to delegate its functions relating to education to a joint school consisting partly of specialists who are not members of the Board.

We recommend however that the Dy Inspector of Schools of the Moyyar District shall be invited to be present at all the meetings of the Standing Sub-Committee for Schools but he shall not have the right to Vote

We beg to remain
Sir.
Your most obedient servants

has been a great delay
which I much regret—

The D.P.I. & the Board
have now come to an
understanding—Please
see the enclosure & the
Bhashyam letter of 4/1/97

The points for orders
are

(1) Is the Board to be relieved
of the grant of Rs 2640 a
year which it now makes
to the Wesleyan High School
and Hanumantha Bhashyam
Pillai (Normal School)?

(2) If so, is it necessary
to tell the Board what it
should do with the sum
thus saved, for
the extension of the new
Primary schools which
it proposes to open
& the said sum of
Rs 2640?

I submit that the
relief asked for may be
sanctioned, & that
arrangements for carrying
may be left to the Board
itself. The grant of relief
seems to have been

For. President.

Read (correspondence ending with Letter No. 4741/270 dated 6th January 1897, from the Inspector General of Education in Mysore on the subject of relieving the Mysore Municipalities of the liability to pay grants-in-aid to High Schools.

No Ed 231 Q 168-60

Order dt 5-2-98

In the letter read above the Inspector General forwards the report of the Sub-Committee, who are of opinion that the savings viz Rs 2640/ effected by relieving the Municipalities from the payment of grants-in-aid to the High Schools, may be utilized towards primary Schools. The sum of Rs 2640/- is made up of Rs 1800/ paid to the Maharaja's High School Mysore

Submitted for orders
